Zor, U., 318, 471
Zuckerman, A., 461

# SUBJECT INDEX*

ACETYLCHOLINESTERASE
On the subunit structure of acetylcholinesterase, 179
ACID-BASE BALANCE
Acid-base balance in early evaluation of fetal distress during labor, 617
ACID PHOSPHATASE
Platelet acid phosphatase availability, 494
Study of acid phosphatase in sera of Gaucher's disease patients, subcellular tissue fractions and platelet extracts, 479
ADDISON'S DISEASE
Hyperkalemic quadriplegia in Addison's disease without hyperpigmentation, 650
ADENOSINE TRIPHOSPHATASE
Fusion factor and ATPase in a strain of Newcastle disease virus in different hosts, 422
Fluorescence of 8-anilino-1-naphthalene-sulfonate bound to ox-brain $Na^+$- and $K^+$-stimulated adenosine triphosphatase, 726
ADRENAL CORTEX
Effect of medial forebrain bundle lesions on adrenocortical responses to photic stimulation (PSC), 437
AGGLUTINATION
Leptospiral agglutinating factor in turtles, 408
AMILORIDE
Treatment of edema with amiloride alone and in combination with hydrochlorothiazide, chlorothiazide and ethacrynic acid (PSC), 156
AMPICILLIN
Blood levels of ampicillin, kanamycin and gentamicin in the uremic patient, 683
AMYLOIDOSIS
Incidence of amyloidosis in recurrent polyserositis, 2
Renal manifestations in recurrent polyserositis, 228
ANEMIA
Contribution of fragiligrams to the differential diagnosis of thalassemia and iron deficiency anemia, 161
Polycythemia following folic acid and vitamin $B_{12}$ treatment of anticonvulsant-induced megaloblastic anemia, 49
ANGIOKERATOMA
Angiokeratoma corporis diffusum (Fabry's disease) with renal, ocular and possibly cardiac involvement, 641
ANTIBODIES
Antibodies to species homologous tissue antigens in the rat, 523
ANTIGENS
Kidney specific antigens in the urine of rats with experimental acute toxic nephropathy (PSC), 311
AORTA
Aortic phospholipids. A biochemical, radioautographic and morphological study of phospholipid localization in normal adult aorta, 53
Surgical treatment of coarctation of the aorta, 635
ARRHYTHMIA
Detection of transient arrhythmias, by continuous long-term recording of electrocardiograms of active subjects, 103
ASTHMA
International Symposium on Allergy and Rehabilitation of Asthmatic Patients, 25 to 29 October, 1970, Jerusalem, Tel Aviv, Arad, Abstracts of papers, 741
AUDIOMETRY
Cochlear and cortical audiometry, 219

BILIRUBINOMETRY
Bilirubinometry of jaundiced serum exposed to light: Malloy-Evelyn vs. direct spectrophotometric technique (PSC), 432
BLOOD PRESSURE
Blood pressure responses to submaximal exercise in normotensive males (PSC), 568
BLOOD SUGAR
Blood glucose levels and glucose tolerance in prediabetic and subclinical diabetic women on a low dose progestogen contraceptive, 703
Changes in serum glucose and free fatty acids after administration of tolbutamide to obese women (PSC), 304
Effect of glucose, fructose, sucrose and starch on nitrogen utilization in rats fed high and low protein diets, 86

* PSC = Preliminary or short communication

Metabolic changes in experimental intrauterine growth retardation: Blood glucose and liver glycogen in dysmature and premature newborn rats, 697
BONE AND BONES
Does the periosteum contribute to bone strength? 630
The stimulation by heparin and parathyroid hormone of bone resorption in tissue culture, 691
BRAIN
Cochlear and cortical audiometry conveniently recorded in the same subject, 219
Effect of medial forebrain bundle lesions on adrenocortical responses to photic stimulation (PSC), 437
Hemispheric cerebral dominance, 294
BRAIN INJURY, ACUTE
Callus formation after acute brain damage, 163
BRUCELLOSIS
Brucellosis with endocarditis: Report of an unusual case with observations on the relationship to aortic stenosis and on treatment, 273

CALLUS
Callus formation after acute brain damage, 163
CARBOHYDRATES
Effect of glucose, fructose, sucrose and starch on nitrogen utilization in rats fed high and low protein diets, 86
Studies in carbohydrate-induced hypertriglyceridemia. Aspects of fructose metabolism, 80
CATECHOLAMINES
Frog muscle responses to catecholamine β-receptor blocking agents, 224
CEREBRAL CORTEX
Cochlear and cortical audiometry. Conveniently recorded in the same subject, 219
CEREBRAL DOMINANCE
Hemispheric cerebral dominance, 294
CEREBROVASCULAR DISORDERS
Diabetes and cerebrovascular accidents, 598
CHLOROPHENYLALANINE
Inhibition of phenylalanine hydroxylation during treatment of carcinoid syndrome with p-chlorophenylalanine, 475
CHOLANGITIS
Recurrent cholangitis caused by echinococcosis of the biliary passages, 388
CHOLELITHIASIS
Presence of pancreatic juice in the gall bladder of patients with cholelithiasis (PSC), 313
COCHLEA
Cochlear and cortical audiometry, 219
COMMUNITY HEALTH SERVICES
Summary of recommendations of the Israel Medical Association Committee on the organization of health services in Israel, 168
COMPUTER DIAGNOSIS
Computer study of thyroid diseases. I. Methodology, 325
Computer study of thyroid diseases. II. Results, 333
CONGRESSES
Annual Meeting of the Israel Immunological Society, 2nd, Rehovot, 1970, Abstracts of papers, 440
Beilinson Symposium on Juvenile Diabetes, 1st, Petah Tikva, 1970, 673
Conference of the International Society of Geographical Pathology, 10th, Jerusalem, 1969, 176
International Congress of the British Association of Paediatric Surgeons, 16th, 323
International Symposium on Allergy and Rehabilitation of Asthmatic Patients, Jerusalem, Tel Aviv, Arad, 1970, Abstracts of papers, 741
Scientific Meeting of the Israel Physiological and Pharmacological Society, 21st, Ness-Ziona, 1969, Abstracts of papers, 318
Scientific Meeting of the Israel Physiological and Pharmacological Society, 22nd, Beersheba, 1970, Abstracts of papers, 466
CONTRACEPTIVES, ORAL
Blood glucose levels and glucose tolerance in prediabetic and subclinical diabetic women on a low dose progestogen contraceptive, 703
CROSS REACTIONS
Studies on antigenic cross-reactivity of oncogenic RNA viruses. Cross-reactions between mouse mammary tumor viruses from different mouse strains, 611
CRYOFIBRINOGENEMIA
Essential cryofibrinogenemia. Clinical, pathological and immunological studies, 32
CYCLAMATES
Report on cyclamates by the committee set up by the Israel Ministry of Health, 576

DEAFNESS
Hereditary nephritis and deafness, 544
DEFIBRINATION
Defibrination following *Echis colorata* bite in man, 720
DIABETES MELLITUS
Beilinson Symposium on Juvenile Diabetes, 1st, 673
Blood glucose levels and glucose tolerance in prediabetic and subclinical diabetic women on a low dose progestogen contraceptive, 703
Diabetes and cerobrovascular accidents, 598

Studies on insulin secretion in man with emphasis on prediabetes (lecture), 284
DIET
Effect of glucose, fructose, sucrose and starch on nitrogen utilization in rats fed high and low protein diets, 86
Metabolic effects of carbohydrate-free diets, 498
Validity of a short dietary questionnaire, 589
DIURETICS
Treatment of edema with amiloride alone and in combination with hydrochlorothiazide, chlorothiazide and ethacrynic acid (PSC), 156
DYES, FLUORESCENT
Fluorescence of 8-anilino-1-naphthalene-sulfonate bound to ox-brain $Na^+$- and $K^+$-stimulated adenosine triphosphatase, 726

ECHINOCOCCOSIS
Recurrent cholangitis caused by echinococcosis of the biliary passages, 388
Studies on the enzymes of hydatid cyst fluid. Quantitative determination of enzymes present in *Echinococus granulosus* cyst fluid, 383
ECHO VIRUS INFECTIONS
An outbreak among kibbutz children of a febrile illness associated with ECHO virus type 4, 535
EDEMA
Treatment of edema with amiloride alone and in combination with hydrochlorothiazide, chlorothiazide and ethacrynic acid (PSC), 156
EDUCATION, MEDICAL
Evolution of selection methods for admission to medical school. I. Matriculation grades, entrance examination and personal interview as predictors of achievement in medical school, 113
Evolution of selection methods for admission to medical school. II. Critical evaluation of a semi-structured interview, 126
Evolution of selection methods for admission to medical school. III. Psychological tests in the selection of medical students, 132
The Israel physician. His training responsibilities, and rights, 145
ELECTROCARDIOGRAPHY
Detection of transient arrhythmias by continuous long-term recording of electrocardiograms of active subjects, 103
ELECTROCHEMISTRY
The excitable electrogenic membrane as a heterogeneous electrochemical system: new evidence, 185
ENDOCARDITIS
Brucellosis with endocarditis. Report of an unusual case with observations on the relationship to aortic stenosis and on treatment, 273
EXERTION
Blood pressure responses to submaximal exercise in normotensive males, 568
EYE MANIFESTATIONS
Angiokeratoma corporis diffusum (Fabry's disease) with renal, ocular and possibly cardiac involvement, 641

FAMILIAL MEDITERRANEAN FEVER
Gynecological aspects of recurrent polyserositis (familial Mediterranean fever, periodic disease), 9
Incidence of amyloidosis in recurrent polyserositis (familial Mediterranean fever), 2
Renal manifestations in recurrent polyserositis (familial Mediterranean fever), 228
FATTY ACIDS
Changes in serum glucose and free fatty acids after administration of tolbutamide to obese women (PSC), 304
FETAL DISTRESS
Acid-base balance in early evaluation of fetal distress during labor, 617
FETAL GROWTH
Metabolic changes in experimental intrauterine growth retardation. Blood glucose and liver glycogen in dysmature and premature newborn rats, 697
FIBROBLASTS
The effect of hydrocortisone on fibroblast-leukocyte interaction *in vitro*, 308
FOLIC ACID
Polycythemia following folic acid and vitamin $B_{12}$ treatment of anticonvulsant-induced megaloblastic anemia, 49
FRACTURES
Does the periosteum contribute to bone strength? 630
FRAGILIGRAMS
Contribution of fragiligrams to the differential diagnosis of thalassemia and iron deficiency anemia, 161
FRUCTOSE
Studies in carbohydrate-induced hypertriglyceridemia. Aspects of fructose metabolism, 80
FUSION FACTOR
Fusion factor and ATPase in a strain of Newcastle disease virus in different hosts, 422

GAUCHER'S DISEASE
Study of acid phosphatase in sera of Gaucher's disease patients, subcellular tissue fractions and platelet extracts, 479

GENTAMICIN
Blood levels of ampicillin, kanamycin and gentamicin in the uremic patient, 683
GLOMERULONEPHRITIS
Antibodies to species homologous tissue antigens in the rat. IV. Correlation of circulating antibodies with glomerulonephritis in rats sensitized with homologous tissue components, 523
Renal manifestations of recurrent polyserositis (familial Mediterranean fever), 228
GLUCOSE TOLERANCE
Blood glucose levels and glucose tolerance in prediabetic and subclinical diabetic women on a low dose progestogen contraceptive, 703
GLUCOSE-6-PHOSPHATE DEHYDROGENASE
Hemolysis in Wilson's disease. The role of glucose-6-phosphate dehydrogenase inhibition, 549
GLYCOGEN
Metabolic changes in experimental intrauterine growth retardation. Blood glucose and liver glycogen in dysmature and premature newborn rats, 697
GYNECOLOGIC DISEASES
Gynecological aspects of recurrent polyserositis (familial Mediterranean fever, periodic disease), 9

HAND DEFORMITIES
Five-fingered hand. One-stage pollicization of the radial finger, 280
HEART
Consumption and cumulation of the inotropic effect of depolarization. A dynamic, descriptive analysis of interval-strength relationship in the heart *in vivo*, 90
Laceration of the heart in a pregnant woman, 717
Progressive heart block in a case of scleroderma, 373
HEMATOPOIETIC SYSTEM
Morphological and cytochemical observations on cells of the hemopoietic system of *Agama stellio* (Linnaeus). A comparative study, 23
Radiation-induced changes in some biochemical parameters of the hemopoietic tissue of rabbits, 14
HEMOCHROMATOSIS
Primary hemochromatosis in a premenopausal woman, 44
HEMODIALYSIS
Factors affecting longevity in unselected patients on maintenance hemodialysis, 677
HEMOGLOBIN
Changing hemoglobin picture among parturients in Jerusalem, 267
HEMOLYSIS
Hemolysis in Wilson's disease. The role of glucose-6-phosphate dehydrogenase inhibition, 549
HEPARIN
The stimulation by heparin and parathyroid hormone of bone resorption in tissue culture, 691
HEPATITIS, INFECTIOUS
Computer analysis of liver function tests and their interrelationships in 347 cases of viral hepatitis, 67
HEREDITARY DISEASES
Hereditary nephritis and deafness. Report of a family, 544
HISTIDINE
A case of unexplained excretion of urocanic acid and urocanyl glycine after a histidine loading test, 488
HYDROCOTISONE
The effect of hydrocortisone on fibroblast-leukocyte interaction *in vitro* (PSC), 308
HYPERGLYCERIDEMIA
Studies in carbohydrate-induced hypertriglyceridemia. Aspects of fructose metabolism, 80
HYPERVITAMINOSIS
Effects of hypervitaminosis $D_2$ altered by pregnancy in rats. Hyperlipidemia and fatty liver degeneration with restrained injuries to the cardiovascular system and other organs, 622
HYPERSENSITIVITY
Gastrointestinal protein loss in allergy to cow's milk β-lactoglobulin, 506
Internation Symposium on Allergy and Rehabilitation of Asthmatic Patients, Jerusalem, Tel Aviv, Arad, 1970, Abstracts of papers, 741
Paracortical thymus dependent areas in lymph nodes of patients with nonreticuloendothelial neoplasms (PSC), 567
HYPERTENSION
Relationship of sweat sodium concentration to blood pressure in control subjects and in patients with essential and renal hypertension (PSC), 665

IMMUNOLOGY
Second annual meeting of the Israel Immunological Society, Abstracts of papers, 440
INFLUENZA VIRUS
Inactivation of influenza and Newcastle disease viruses by oxidized spermine (PSC), 435
INSECTICIDES
Antidotal action of new oximes in experimental organophosphate intoxication, 209
Pralidoxime iodide (PAM) and toxogonin as antidotes in acute malathion intoxication in the dog (PSC), 154
INSULIN
Studies on insulin secretion in man with emphasis on prediabetes, 284

INSULINOMA
Preoperative localization of a functioning insulinoma by selective angiography, 655
INTESTINAL ABSORPTION
Effect of saline loading on absorption from the cat ileum *in vivo*, 195
INTESTINES
Determination of trypsin activity in human intestinal contents by hydrolysis of benzoyl-DL-arginine p-nitroanilide, 670
INULIN
Passage of inulin from mother to fetus as an unchanged polymer (PSC), 734
IODINE ISOTOPES
Affinity of radioiodinated bovine serum albumin for lymphoid cells. III. Further experiments with cells of normal animals, 519

KANAMYCIN
Blood levels of ampicillin, kanamycin and gentamicin in the uremic patient, 683
KIDNEY
Acquired prostaglandin $E_2$ (medullin) deficiency as the cause of oliguria in acute tubular necrosis. A hypothesis, 346
Angiokeratoma corporis diffusum (Fabry's disease) with renal, ocular and possibly cardiac involvement, 641
Renal manifestations in recurrent polyserositis (familial Mediterranean fever), 228
Rhinocerebral mucormycosis following kidney transplantation, 646

LACTOGLOBULIN
Gastrointestinal protein loss in allergy to cow's milk β-lactoglobulin, 506
LEPTOSPIRA
First isolation of *Leptospira icterohaemorrhagiae* from man in Israel, 399
Human infections with *Leptospira ballum* in Israel, 403
Leptospiral agglutinating factor in turtles. Further studies on fractionated sera, 408
LEUKEMIA
Chronic lymphatic leukemia associated with macroglobulinemia, 365
Red cell osmotic fragility in experimental murine leukemia, 358
LEUKOCYTES
The effect of hydrocortisone on fibroblast-leukocyte interaction *in vitro* (PSC), 308
LIGHT
Effect of medial forebrain bundle lesions on adrenocortical responses to photic stimulation (PSC), 437
LIVER FUNCTION TESTS
Computer analysis of liver function tests and their interrelationships in 347 cases of viral hepatitis, 67
LONGEVITY
Factors affecting longevity in unselected patients on maintenance hemodialysis, 677
LYMPH NODES
Paracortical thymus dependent areas in lymph nodes of patients with nonreticuloendothelial neoplasms (PSC), 567
LYMPHOID TISSUE
Affinity of radioiodinated bovine serum albumin for lymphoid cells. III. Further experiments with cells of normal animals, 519
LYMPHOMA
Childhood abdominal lymphoma in Israel, 246
Chronic lymphatic leukemia associated with macroglobulinemia, 365

MALIGNANT CARCINOID SYNDROME
Inhibition of phenylalanine hydroxylation during treatment of carcinoid syndrome with p-chlorophenylalanine, 475
MATERNAL-FETAL EXCHANGE
Passage of inulin from mother to fetus as an unchanged polymer (PSC), 734
MEDIAL FOREBRAIN BUNDLE
Effect of medial forebrain bundle lesions on adrenocortical responses to photic stimulation (PSC), 437
MEMBRANES
The excitable electrogenic membrane as a heterogeneous electrochemical system. New evidence, 185
MICROCOCCUS
Fine structure of polyphosphate granules in *Micrococcus lysodeikticus*, 511
MUCORMYCOSIS
Rhinocerebral mucormycosis following kidney transplantation, 646
MYCOBACTERIUM INFECTIONS
A case of pulmonary infection with two mycobacterial serotypes, 428
MYCOPLASMA
Isolation and identification of *Mycoplasma* from clinical material in Israel, 605
MYELOID METAPLASIA
Spontaneous splenic rupture in myeloid metaplasia, 658

NEOPLASMS
Childhood abdominal lymphoma in Israel, 246

Chronic lymphatic leukemia associated with macroglobulinemia, 365
Paracortical thymus dependent areas in lymph nodes of patients with nonreticuloendothelial neoplasms (PSC), 567
Presence of serologically distinct protein in serum of cancer patients and pregnant women. An attempt to develop a diagnostic cancer test, 708
NEPHRITIS
Acute tubulo-interstitial nephritis following sulfadiazine therapy, 561
Hereditary nephritis and deafness. Report of a family, 544
Renal manifestations in recurrent polyserositis (familial Mediterranean fever), 228
NEPHROPATHIES, TOXIC
Acquired prostaglandin $E_2$ (medullin) deficiency as the cause of oliguria in acute tubular necrosis. A hypothesis, 346
Kidney specific antigens in the urine of rats with experimental acute toxic nephropathy (PSC), 311
NEUROMUSCULAR DEPOLARIZATION
Consumption and cumulation of the inotropic effect of depolarization. A dynamic, descriptive analysis of interval-strength relationship in the heart *in vivo*, 90
NEUROMUSCULAR DEPOLARIZING AGENTS
Treatment of spasticity by phenol block, 555
NEUROMUSCULAR FACILITATION
Some statistical properties of neuromuscular facilitation, 201
NITROGEN
Effect of glucose, fructose, sucrose and starch on nitrogen utilization in rats fed high and low protein diets, 86
NEWCASTLE DISEASE VIRUS
Fusion factor and ATPase in a strain of Newcastle disease virus in different hosts, 422
Inactivation of influenza and Newcastle disease viruses by oxidized spermine (PSC), 435

OLIGURIA
Acquired prostaglandin $E_2$ (medullin) deficiency as the cause of oliguria in acute tubular necrosis. A hypothesis, 346
ONCOGENIC VIRUSES
Studies on antigenic cross-reactivity of oncogenic RNA viruses. Cross-reaction between mouse mammary tumor viruses from different mouse strains, 611
OPEN-HEART SURGERY
Red blood cell potassium and serum potassium during open-heart surgery (PSC), 736
ORGAN CULTURE
Hormonogenesis in organ culture of normal and pathological human thyroid tissues (PSC), 660
ORGAN SPECIFICITY
Antibodies to species homologous tissue antigens in the rat. IV. Correlation of circulating antibodies with glomerulonephritis in rats sensitized with homologous tissue components, 523
OSMOTIC FRAGILITY
Red cell osmotic fragility in experimental murine leukemia, 358
OXIMES
Antidotal action of new oximes in experimental organophosphate intoxication, 209
Pralidoxime iodide (PAM) and toxogonin as antidotes in acute malathion intoxication in the dog (PSC), 154

PANCREATIC JUICE
Presence of pancreatic juice in the gall bladder of patients with cholelithiasis (PSC), 313
PARATHYROID HORMONE
The stimulation by heparin and parathyroid hormone of bone resorption in tissue culture, 691
PATHOLOGY
Tenth Conference of the International Society of Geographical Pathology, 176
PERIOSTEUM
Does the periosteum contribute to bone strength? 630
PHENOL
Treatment of spacticity by phenol block, 555
PHENYLALANINE HYDROXYLASE
Inhibition of phenylalanine hydroxylation during treatment of carcinoid syndrome with p-chlorophenylalanine, 475
PHONOCARDIOGRAPHY
Primary prevention of rheumatic fever in Jerusalem schoolchildren. III. Screening for heart disease by means of the PhonoCardioScan, 584
PHOSPHOLIPIDS
Aortic phospholipids. A biochemical, radioautographic and morphological study of phospholipid localization in normal adult aorta, 53
PHYSICIANS
The Israel physician. His training, responsibilities and rights, 145
PILOCARPINE
Analgetic effect of pilocarpine (PSC), 669
POISONING
Antidotal action of new oximes in experimental organophosphate intoxication, 209
Chronic thallium poisoning, 380
Pralidoxime iodide (PAM) and toxogonin as anti-

dotes in acute malathion intoxication in the dog (PSC), 154
POLYCYTHEMIA
Polycythemia following folic acid and vitamin $B_{12}$ treatment of anticonvulsant-induced megaloblastic anemia, 49
POLYPHOSPHATES
Fine structure of polyphosphate granules in *Micrococcus lysodeikticus*, 511
POLYSEROSITIS
Gynecological aspects of recurrent polyserositis (familial Mediterranean fever, periodic disease), 9
Incidence of amyloidosis in recurrent polyserositis (familial Mediterranean fever), 2
Renal manifestations in recurrent polyserositis (familial Mediterranean fever), 228
POTASSIUM
Red blood cell potassium and serum potassium during open-heart surgery (PSC), 736
PREGNANCY
Changing hemoglobin picture among parturients in Jerusalem, 267
Laceration of the heart in a pregnant woman, 717
Passage of inulin from mother to fetus as an unchanged polymer (PSC), 734
Presence of serologically distinct protein in serum of cancer patients and pregnant women. An attempt to develop a diagnostic cancer test, 708
Pruritus gravidarum of hepatic origin, 540
Toxemia of pregnancy in Jerusalem. I. Epidemiological studies of a total community, 253
PREGNANCY, ANIMAL
Effects of hypervitaminosis $D_2$ altered by pregnancy in rats. Hyperlipidemia and fatty liver degeneration with restrained injuries to the cardiovascular system and other organs, 622
PROSTAGLANDINS
Acquired prostaglandin $E_2$ (Medullin) deficiency as the cause of oliguria in acute tubular necrosis. A hypothesis, 346
PROTEIN-LOSING ENTEROPATHIES
Gastrointestinal protein loss in allergy to cow's milk β-lactoglobulin, 506
PRURITIS
Pruritus gravidarum of hepatic origin, 540
PSYCHOLOGICAL TESTS
Evolution of selection methods for admission to medical school. III. Psychological tests in the selection of medical students, 132

QUADRIPLEGIA
Hyperkalemic quadriplegia in Addison's disease without hyperpigmentation, 650
QUESTIONNAIRES
Validity of a short dietary questionnaire, 589
QUOTATIONS
Hebrew medicine, 52, 112, 153, 227, 266, 293, 340, 379, 427, 487, 510, 554, 616, 654, 707, 716, 751

RADIATION EFFECTS
Radiation-induced changes in some biochemical parameters of the hemopoietic tissue of rabbits, 14
REFLEXES, PROPRIORECEPTIVE
Controlled elecitation and recording of proprioceptive reflexes, 738
RHEUMATIC FEVER
Primary prevention of rheumatic fever in Jerusalem schoolchildren. III. Screening for heart disease by means of the PhonoCardioScan, 584

SALIVARY GLANDS
Role of salivary glands in response to thirst stimuli (PSC), 573
SALMONELLA
Animal sources of salmonella in Israel (1963 to 1967), 413
SALT DEPLETION
Electrolyte, water and urea content of dog kidney in acute salt depletion, 351
SCLERODERMA
Progressive heart block in a case of scleroderma, 373
SERUM ALBUMIN
Affinity of radioiodinated bovine serum albumin for lymphoid cells. III. Further experiments with cells of normal animals, 519
SKIN GRAFTING
Simple method for skin grafting in mice (PSC), 315
SNAKE BITES
Defibrination following *Echis colorata* bite in man, 720
SODIUM
Effect of saline loading on absorption from the cat ileum *in vivo*, 195
Relationship of sweat sodium concentration to blood pressure in control subjects and in patients with essential and renal hypertension (PSC), 665
SPASTICITY
Treatment of spasticity by phenol block, 555
SPERMINE
Inactivation of influenza and Newcastle disease viruses by oxidized spermine (PSC), 435
SPLENIC RUPTURE
Spontaneous splenic rupture in myeloid metaplasia, 658
STREPTOCOCCUS PYOGENES
Sensitivity of *Streptococcus pyogenes* types to tetracycline and other antibodies, 393

STUDENTS, MEDICAL
Evolution of selection methods for admission to medical school. I. Matriculation grades, entrance examination and personal interview as predictors of achievement in medical school, 113
Evolution of selection methods for admission to medical school. II. Critical evaluation of a semi-structured interview, 126
Evolution of selection methods for admission to medical school. III. Psychological tests in the selection of medical students, 132
Letter to the Editor, 581
SULFADIAZINE
Acute tubulo-interstitial nephritis following sulfadiazine therapy, 561
SYMPATOLYTICS
Frog muscle responses to catecholamine β-receptor blocking agents, 224

TETRACYCLINE
Sensitivity of *Streptococcus pyogenes* types to tetracycline and other antibiotics, 393
THALASSEMIA
Contribution of fragiligrams to the differential diagnosis of thalassemia and iron deficiency anemia (PSC), 161
THALLIUM
Chronic thallium poisoning, 380
THIRST
Role of salivary glands in response to thirst stimuli (PSC), 573
TOXOGONIN
Pralidoxime iodide (PAM) and toxogonin as antidotes in acute malathion intoxication in the dog (PSC), 154
TRYPSIN
Determination of trypsin activity in human intestinal contents by hydrolysis of benzoyl-DL-arginine p-nitroanilide (PSC), 670
UREA
Electrolyte, water and urea content of dog kidney in acute salt depletion, 351
UREMIA
Blood levels of ampicillin, kanamycin and gentamicin in the uremic patient, 683
Comparison of acetate and bicarbonate in the treatment of uremic acidosis (PSC), 732
UROCANIC ACID
A case of unexplained excretion of urocanic acid and urocanyl glycine after a histidine loading test, 488
UROLITHIASIS
Childhood urolithiasis in northern Israel, 341

VITAMIN $B_{12}$
Polycythemia following folic acid and vitamin $B_{12}$ treatment of anticonvulsant-induced megaloblastic anemia, 49
VITAMIN $D_2$
Effects of hypervitaminosis $D_2$ altered by pregnancy in rats. Hyperlipidemia and fatty liver degeneration with restrained injuries to the cardiovascular system and other organs, 622

WATER-ELECTROLYTE BALANCE
Electrolyte, water and urea content of dog kidney in acute salt depletion, 351
WHO
World health news, 579
WILSON'S DISEASE
Hemolysis in Wilson's disease. The role of glucose-6-phosphate dehydrogenase inhibition, 549
